the essays in this volume reinterpret and contest the gothic cultural inheritance each from a specifically twenty first century perspective most are based on papers delivered at a conference held appropriately in horace walpole's gothic mansion at strawberry hill in west london which is usually seen as the geographical origin of the first but not the last of the many gothic revivals of the past 300 years in a contemporary context the gothic sensibility could be seen as a mode particularly applicable to the frightening instability of the world in which we find ourselves at the beginning of the twenty first century the truth is probably less epochal that gothic never went away when were we ever without fear or at least has persisted since its resurgence in the late nineteenth

century gothic is at least as modern as it is ancient and each essay in this collection contributes to current scholarship on the gothic by exploring a particular aspect of gothic's contemporaneity the volume contains papers on horror novels and cinema poetry popular music and fan cultures

postliberalization indian novels in english politics of global reception and awards is a critical handbook that focuses on trends in contemporary indian novels and discusses the global reception of these works the volume provides a systematic approach to the study of indian novelists that have not been with certain exceptions extensively examined

the apocalypse of enoch and bhuśunda the apocalypse of enoch and bhuśunda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology in this second volume of a chronology of the primeval gods and the western sunrise ancient myths from multiple geographies are correlated to spikes in cosmic rays over the past 120 000 years as documented in ice core data the chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods hyper nova at the galactic center associated with sgr a the dragon sgr west the beast and sgr east hiranyāksha and hiranyakas ipu with secondary supernova seen as the birth of new destructive gods ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geo polar migrations which has resulted in a shift of the earth's equator on at least one occasion multiple myths are shown to represent a view of the sky that can only be seen from the antarctic region multiple versions of the myths of orion are analyzed showing clear linkages between the vedic myth of trishanku the book of genesis senmut's tomb and the myths of prajāpati dakṣa representing the oldest version of the orion myth older than trishanku and genesis by 20 000 years the stunning conclusion explains how the watchers of enoch were the vedic descendants of ila and ikṣvaku these descendants of the seventh manu had been observing and recording the stars as a source of cataclysm for at least 15 000 years prior to enoch thus allowing enoch to prophesize a new heaven that prophecy became the foundation for st john's book of revelations which is shown to be a description of a series of cataclysms attributed to sgr west the book offers a new theory for explaining geo polar migration that theory suggests small shifts in the location of the earth's center of gravity underlie each migration but that there are multiple causes for the shifts

the puritan ideology of mobility corporatism the politics of place and the founding of new england towns before 1650 examines the ideology that english puritans developed to justify migration their migration from england to new england migrations from one town to another within new england and often their repatriation to the mother country puritan leaders believed firmly that nations colonies and towns were all bodies politic that is living and organic social bodies however if a social body became distempered because of scarce resources or political or religious discord it became necessary to create a new social body from the old in order to restore balance and harmony the new social body was articulated through the social ritual of land distribution according to aristotelian distributive justice the book will trace this process at work in the founding of ipswich and its satellite town in massachusetts
